

Bolton Neighborhood Association

Meeting 04/18/11

The meeting was called to order about 7:00pm in the Community Room at the Bolton Fire Station.

Chuck Landskroner of the Robinwood Neighborhood Association shared with us that the RNA voted to oppose the Lake Oswego Water Treatment facility in the neighborhood. He stressed that this is a West Linn issue, not just a neighborhood issue. The area in question is zoned residential and that needs to change for the water treatment expansion to go forward; talk of necessary waivers from surrounding neighbors was brought up. Chuck wants the support of the Bolton Neighborhood Association to oppose this proposal.

Alma Coston proposes that a representative from Lake Oswego be invited to come and discuss plan with the association so we can hear from both sides of the debate before making any decisions.

President Sally McLarty attended recent Presidents' Summit held at West Linn City Hall. The city is proposing to cut the Neighborhood Association Budget's by 2/3rds. In the past, the city has let the associations roll over any leftover funds from year to year. They say that the groups are not using the allotted budget money. Also brought up at the Summit was the issue of Association By laws. Sally will make copies to distribute for the next months' meeting. Come September, we can make any changes or leave them as they are.

June 29, 2011 ice cream social at Hammerle Park; 7pm. Hosted by BNA
